WEST POINT, N. Y., July 17 .- In the Fitz John Porter case to-day ex-Gov. Wm. Newell, of New Jersey, testified President Lincoln at the suggestion of Gov. Randolph and others regarding Gen. l'orter's case. President Lincoln said to him that he had not been able to give the personal attention to Gen. Porter's case which its merits required, but had accepted the opinion of Judge Advocate Holt, and meant to offer him a chance to put in new evidence. The President further added that he had a high regard for Gen. Porter as a gentle mun and soldier, and hoped he would be able to vindicate himself that way. Maj. Geo. D. Ruggies, of Pope's staff,

was the next witness. He testified he wrote the noted 4:30 order, and that the date was put on it before Pope commenced to dictate it. He then had to rite it out, make conies, seal it up and direct it, and detail an orderly of the aide de camp to carry it. Other witnesses testified in relation

SUICIDE AT WHEATLAND.

Yesterday morning Mr. Frederick Volters, a men about 62 years of age, committed suicide in Wheatland township, on farm owned by E Harpstrite, of this ity, and occupied by a son of deceased, with whom he lived. The event took place about 9 o'clock in the foremoon, and

was after the following manner : The young man went to the harvest field as usual in the moraing, but feeling mill ground; also to consider the bids for unwell and fearing the excessive heat, he returned to the house. The old gentle come before the council. man, realizing that there was work that ought to be done, went to the field to take the place of his son. He, too, soon complained of feeling unwell, and sat down in the shade. After a few minutes he went to the house, and taking down a large double barrel pistol, repaired to an orchard near by, where he placed the muzzle of the pistol to his head and sent the contents of one barrel through his brain, which killed him instantly. The report of the pistol was heard at the house, and the son repaired to the place, where he found his father lying dead, with his head pierced by the pistel shot.

It is supposed that excessive heat produced mental aberation, which led to the perpetration of the act. Deceased had been heard to say within a month or two that he intended to die like a soldier, which leads some to think that the spicide was the result of an infatuation in regard to dving like a soldier. loving call: GEO P. HARDY, City Register: will please call a meeting of the City Council, to be held at the council rooms, this (Wednesday) evening, 71 o'clock, for the purpose of considering the question of ownership of the cinders on the rolling

ALD, BUTMAN, KUNY. The following communication was presented, read and placed on file

To the Gentlemen of the City Council. In accordance with the last paragraph of Sec. 2, Article 4 of our city charter, I deem it my duty to inform the council that at a regular meeting held May 1, 1876, (the proceedings of which I now respectfully call your attention to) there appears the following in words substantially as follows.

"Alderman Durfee moved that the "Alterman Furree moves that the proposition of R L. Perry to sell to the city of Decatur all the cinders on the grounds recently occupied by the Decatur Rolling Mill Company at \$250, be accepted Adopted Talso call your attention to the proceed-

ings of the City Council of a meeting held June 19th, 1876, the records of which show the following "On motion of Ald. Harwood a warrant

was ordered issued to R L. Perry for \$250 in payment of cinders."

These records, gentlemen, show simply one regular succession of ownership—first in Mr Perry to all the cinders on the rrounds mentioned; then a proposition to sell to the city all the cinders on the grounds mentioned. There are acceptance of that proposition to sell all the emders on the grounds mentioned, and finally a

payment and a recent
These are our records—clear, clean and distinct, and by virtue of the authority vested in me by Sec. 2, Article 4 of the charter, 1 have taken steps to protect the title and enforce the rights of the city under the records of the same, by instruct ing the street supervisor and appointing as ing the street supervisor and appointing : special policeman to aid and assist him
I fail to find either in the city charte or by any ordinance whereby the council is authorized to test the rights of property, either real or personal. That question must be determined elsewhere. I there the City Council was created

It is not a question of order, but a ques tion of fact, and I assure the council that I am ready to do my duty whenever any member of the council brings to my notice any provision of the charter or ordinances whereby the introduction of witnesses to prove title to property is made a part of our duties

If the resolution of Ald Durfee, on May 1st, 1976, was ambiguous, indefinite, or uncertain, then I admit that a commit or uncertain, then ladmit that a committee might be appointed to confer with
Mr Perry so as to determine the relative
rights of the city and Mr Perry in a joint
ownership, but that motion of Ald Dufee, as I before remarked, is clear, clean
and distinct, admitting of but one construction, and any attempt to put another
construction upon it, would result to the
disadvantage of the city whose interest
we are sworn to protect and cherish.

we are sworn to protect and cherish.

I repeat, gentlemen, that part of the call to consider the question of the own ership of the cinders on the rolling mill grounds, is a matter foreign to this council, and in addition, gentlemen, I call your attention to the following language of the deed from the Decatur Rolling Mill Co to the city of Decatur "Together with the hereditaments and appurtenances thereunto belonging, to have and hold the same unto the said Richard J. Oglosby and fowher Burrows and their successors in trust, for the use and benefit of the said city of Decatur, to be by them held, kept, sed or disposed of and conveyed as and in the matter directed by resolution of the Ulty Council of said City hereafter to be

I also call your attention to the resoluthis forenon. He says they are having about the same style of weather there that prevails in this locality prevails in this locality.

I also call your measurement of the now in tion of Ald. Bramble, which is now in full force and effect, under the motion of Alderman Durfee, made May 1st, 1876, and also under the section of the deed

and also under the section of the dead hefore mentioned.

In conclusion, I object to sitting as judge and the City Council as jurors, in a case where the interests of the city is jeopardized by matters entirely outside of m records, and I suggest that the counrii let the qu

continues of would respect the call your attention to the resolution of Ald Bramble, referring to rolling mill cindurs, and to attached notice signed by Marios Priest, and as said sendution does he great mustice by depriving me of my personal property I ask its reconsideration

tion

My clai a to the property in question is based upon the following reservation in the deed from the rolling mill company to the trustees for the city, to wit "Reserving to the said party of the first part, [that is, the Rolling Mill Co.,] all of the stone, from cinders, sand and other material placed upon the premises above described by the said Decatur Rolling Mill Co." That is all there is in the deed that

Co." That is all there is in the deed that
refers to the conders. They are reserved
absolutely. No time is specified at which
they shall be removed, and I hold a bill
of sale from said Rolling Mill Co., execu-

of sale from said Rolling Mill Co, executed before the deed was made.

Mayor Priest claims that they belong to the city, first, because they were not removed from said Rolling Mill ground within one year after Oct. 25, 1875, the date when said deed was executed. A careful reading of the deed will, I think, convince the council that the city has no claim on that score. He also claims that the city purchased all of the cinders, scale, etc., and bases that claim on the following motion offered by Ald Durfee, that the proposition of R. L. Perry to sell all the cinders on the ground recently occupied by the Decatur Rolling Mill Co, at \$250 be accepted.

The council should remember that and council should remember that in motion is not a contract. And I don't thus the proposition made are that time that all of the cinders on the rolling mill ground. It was for the two piles of coarse cinders east of where the mill used to stand, and those cinders were measured by Mayor Chambers and Supervisor by Mayor Chambers and business by Dempsey, and the contract was made by Mayor Chambers on behalf of the city,

Mayor Chambers on behalf of the city, and did not include anything except; the cluders east of the mill. And I ask the council to hear from ex Mayor Chambers and George Bempsey what the contract was; and I believe that you will all be satisfied that the city has no claim what ever upon any of the property there, except the remainder of the two piles of cin ders purchased by Mayor Chambers Very truly yours, R. L. Penry

Bids for helibring smokes stack at the Decatur water works were received from M. Troutman, G. W. Frankhouse and Moses Miller & Sons, which were read and referred to the committee on public improvements, and after an examination of the bids, the contract was awarded to Moses Miller & Sons, at \$5.00 per thousand, kiln count, work to be done under supervision of city engineer-by a unanimous vote of the council, on call of ayes

and nays. Ald. Nichols moved that ex-Mayor Chambers be invited to make a verbal statement as to what part of the cinders on the rolling mill ground he purchased of R L. Perry. Mayor Priest declared the motion out of order. Ald. Durfee appealed from the decision of the Mayor Ayes and mays were then called upon the question, "Shall the Mayor be sustained?" and resulted as follows: Ayes: Ald Swearingen; Nays-Ald. Barnett. Training & Colf. A writer in the American Agricultu ist for June gives the following account of the way he began "breaking" a year ling filly. Many of the young readers of the Review, and not a few older ones, may profit by the lesson it teaches as to what kindness and a lump of sugar can do in the early training of colts The headstall, without blinders, was

put on, the check straps tightened to fit, the Dutch collar slipped upon heck, and the saddle and breeching at ached thrown upon her back breeching made her a little nervous so I sent for a little sugar, which quieted her at once In this "rig" she was led about for a few minutes, then the reme were drawn out from the saddle riugs, and she soon allowed herself to be driven about quite well, I going behind her Then we geared her to a very light road wagon, and she looked a little nervous, but her attention was at once taken up by the offer of sugar. She was led a few steps, and allowed to see clearly the wagon following belinnd her, and again sugar was offered. Soon she might be led anywhere drawing the wagon, at a walk or trot, up hill or down. I even drove her once around the house, but thinking the lesson sufficient for once, we stopped here She was not in the east frightened from first to last, and I have not a doubt was impressed shiefly with the new experience to her some of taste Such an exercise repeated once in every tortnight, or even once a month wath slight variation, as she becomes familiar with her daties, and learns to stop and back at the word, will, in a thort time, make her a thoroughly broken" horse, without her even know ing it herself, she thinking only of the sugar she gets for good behavior There is no lack of spirit in the filly, but so far there is no show of wilfulness that does not yield to the mildest coaxing--nor any vice. It would, however, take but a vory little perking, and a cut or two from a whip, to turn her "milk of kind ness into curds, and make her as con
